ALISA GULYAYEVA
FRONT-END DEVELOPER

👤 SUMMARY

Junior Front-End Developer with expertise in HTML5, CSS3, JavaScript, and React. I create modern, user-friendly web solutions and continuously improve my skills. Quick to adapt, solve challenges effectively, and collaborate in teams. Strong analytical thinking and troubleshooting abilities. Currently learning Node.js to enhance my full-stack development skills.

PROJECT EXPERIENCE

- **Call of Victory** **GitHub** *Team Project*

[HTML, CSS(SASS), JS]

The website for the game Call of Victory features a responsive design, Swiper for interactive sliders, and smooth animations for an engaging user experience.
Role: Developer

- **Contact Manager** **GitHub** *Individual Project*

[React, Redux, REST API]

The website has user authentication, contact management, a theme switcher, and responsive design.
Role: Developer

- **Image search** **GitHub** *Individual Project*

[React, TypeScript, REST API]

Role: Developer

- **Portfolio** **GitHub** *Team Project*

[HTML, CSS, JS, REST API]

The website adapts to different devices, features a theme switcher, and uses Swiper.js for interactivity. It connects to a backend for dynamic data.
Role: Developer

- **WatchCharm** **GitHub** *Team Project*

[HTML, CSS, JS]

Role: Team lead, Developer

- **WebStudio** **GitHub** *Individual Project*
[HTML, CSS, JS]

- **Contact Manager - Backend** **GitHub** *Individual Project*
[Node.js, Express.js, MongoDB, Swagger]
